CONSUMPTION.

THE GREAT COUGH REMEDY:

READER! have you a Cough, which you are neglecting, under the idea that it is only a constron cold, that it will soon "wear itself out?" Let a friendfell you, in all kindness, what will soon be the probable result.

In a short time, it you continue to neglect vourself, you will begin to feel a sense of fightness and oppression across the chest, accompanied with frequent sharp during pains. Then a dry, backing Cough will set in, and when you raise anything it will be a thick and vellowish, or white frethy matter, streaked, periaps, with blood. If you still take no medicine, these unpleasant symptoms will increase, and you will soon have Heathe Freer, Cold Chills, Night Sweats, Copious Expectoration, and then Great Prestration. If you still neglect yourself, a lew weeks or mouths will see you consign ed to the grave, leaving your friends to mourn how rapidly CONSUMPTION dol its work, and hurried you away.—Frend! have you no cause to ten aburned? In the above shetch you may see as in a glass, bore arety case of Consumption progresses, with more or less repudity, to a fatal umption progresses, with more or less repulity, to a fatal ertimetion. Of all the Thousands and Millions when this

sumption progresses, with more or less roughlity, to a final termination. Of all the Thousands and Milliams whom this great Destroyer has gaineted to the tomb, every single case began with a Cold! It this had been attended to, all might have been well but, being respiceted, under the field dictusion that it would "wear itself," it transferred its deadly action to the substance of the Lungs, exciting there the formation of taftercles. Another, and another cold added fuel to the fiame, until these tubercles began to soften and supparate eaving, by their ulceration, great envittes in the Lungs. At his crists, the disease is very difficult of cure, and oftentime sets at defiance all human means.

In the latter or worst stage, this medicine will oftentimes arrest the disease, or check its progress, and will always make the patient more comforta le, and prolong his life, and is therefore worthy of a trial;—but in its medicine of forming periods, Consumption is as curable as any other disease, and "Dr. Rogers' Syrup of Laverworth, Yar, and Canchalagun," if taken at this time, will care it \$200 AS SUBELY AS IT IS TAKEN! \$200 This is strong language, but we can refer you to number less living witnesses to prove that it is TRUE And therefore, we carnestly exhait every man, woman and child, who has a Cough, or is subject to Colds, to keep medicine by you in the house; and whenever you take Cold, do not "let it alone". In work anisohoel in your system, but cradicate it thoroughly, at ence, by this power, fully bending compound and leave your Langs uninjured, to carry year in full vigor to a good old age!

And when your child goes to bed wheezing and coughing, you know not that, before morning, Group may not set in, and ere you can get a Physician, your dear child may be beyond the week of table. We have been therefore as you was the reach of help. We be seen you therefore, as you value the lives of your children, keep this medicine by you in the house, and when your little ones take cold and commence coughing, give it to them at once, and rest not until the cough is entirely subdued. Let every Mother, especially, heed well these remarks, that she may not bereafter, when nontrining over the early blight of some cherished blosson, have occasion bitterly to reproach herself for her criminal neglect. It is an old adage, that "to be for warned, is to be forearmed."
